Technical Data Sheet of Cashew Shell Cake

INTRODUCTION: Cashew Shell Cake is the ideal fuel for high calorie requirements in Furnaces. Cashew shell Cakes are ideal for Brick Factories, Tile Factories, Kilns, Boilers, Furnaces where high heat requires to be generated. The Cake gives out a very good colour to the Bricks and Tiles that are manufactured in Cashew Shell Cake fire.

It is an ideal substitute for Fire Wood thus preventing the deforestation of woods. It is cheap and efficient making it the ideal fuel in rural areas. A well designed furnace can reduce the fuel amount required as well as the smoke.

If yes, we offer Cashew Nutshell cakes that are ideal for all of your needs and requirements. We sell shell cake over firewood because it gives us an alternative to protect trees from cutting down. It is an environment-friendly option for burning. It is a cheaper substitute and an efficient way of making fuel in rural areas.

If you are running a furnace and it is well-designed, it can reduce the amount of fuel consumed and smoke generated which means Cashew Nutshell cake is an ideal option to saving trees, reducing pollution. It is a completely eco-friendly product supplied by us to industries spread all over the world.
